

Leaving a Legacy – Planned Gifts

Thank-you for considering leaving a gift in your Will to the Glenrose Rehabilitation Hospital Foundation. A bequest in support of the Glenrose Foundation will allow you to leave a legacy of impact in rehabilitative health care.

At the Glenrose Rehabilitation Hospital we help patients reimagine their futures through innovative treatments and therapies; giving them the best possible recovery outcomes. So much of this work is possible because of the generosity of our donors.

What is a bequest?

A bequest is the most common type of planned gift. It is a gift, left in your Will, and designated as you see fit. Bequests can take several forms; they can be a specific amount, a particular asset (e.g. a property or investment) or a percentage portion of your estate. Bequests made to charitable organizations may help minimize taxes to your estate.

How to include a bequest in your Will

Begin by speaking with your Lawyer about your intentions. We have provided some sample bequest wording below that can be used in your Will.

For a specific amount:

“I give \$_____ to support the work of the Glenrose Rehabilitation Hospital Foundation, charitable registration number 89101 6347 RR0001”.

For estate (either portion or whole):

“I bequeath the residue of my Estate (or ____ %) to the Glenrose Rehabilitation Hospital Foundation, charitable registration number 89101 6347 RR0001”.

If you want to designate your gift to a specific program or service area

We can help you with wording to designate your gift to a specific program or area of the hospital. Please contact us directly to discuss options and opportunities.

Benefits to including a bequest to the Glenrose Foundation in your Will

First, a gift in Will allows you the knowledge that you are supporting an organization you believe in without impacting your current financial situation.

Your generosity will have future impact on patients and their families – a true legacy! The Glenrose Foundation funds innovative technology, research and programs that improve the outcomes for patients undergoing rehabilitation.

Additionally, your estate may benefit from tax savings because of your donation to a registered charity. We recommend speaking with a lawyer regarding Will or estate planning.
